

GREENLAWN SOD & TURF

Live Where You're Living™

CONSERVATURF™ FINE FESCUE

Greenlawn's Conservaturf™ Fine Fescue is a water-friendly turfgrass option that uses less water and fertilizer while maintaining a vibrant, healthy appearance. This blend combines advanced hybrid fine fescues and prairie grasses, blended for superior drought tolerance and a consistently rich green color. Ideal for GREEN Building applications, Conservaturf™ Fine Fescue requires reduced inputs of water, fertilizer, and pesticides, making it a sustainable choice for modern landscapes. With its medium-fine leaf texture, natural shade adaptability, and moderate traffic tolerance, it performs beautifully in both urban and mountain environments. It is also an excellent no-mow option for those seeking a natural, low-maintenance, native grass appearance. Convert and Conserve™ Colorado's water resources when you choose Conservaturf™ Fine Fescue.
